Ivan was special from a very young age: he could ride a bike when he was eighteen months old and read before he was two. He could play cards at the age of three and the piano at four.

His father can't speak English at all so Ivan translates for him. Vadim says, *'I help Ivan a lot. We spend a lot of time together. He and I don't have any friends – we don't want any friends. Other teenagers are boring! We don't like playing sports and we never watch TV. We live for chess!'*
